

# Just for Tonight

Henry Mancini

Could we make it just for us tonight?  
On the table, only candlelight  
Could we find some violins and say  
all the little things we thought and felt today? Could we stop a while at old Maxine's  
for a final round of Absinthe and dreams?  
Then, when the moment's right  
Take advantage of this mood, just for tonight? Could we make it just for us tonight?  
On the table, only candlelight  
Could we find some violins and say  
all the little things we thought and felt today? Could we stop a while at old Maxine's  
for a final round of Absinthe and dreams?  
Then, when the moment's right  
Take advantage of this mood, just for tonight?
