

Huckleberry Sky

Chelsea Williams

I can see the seasons changing fast
Faster every day and every year
I watch them pass me by as we ride
 Side by side, just you and I
 Beneath that huckleberry sky

And I can feel the cold come in at night
 Everywhere I go I see the signs
 I see the changing colors in
 The drugstore decoration aisle
 You know it's time, for dark skies

Well maybe spring will come and we will grow
But you got to give it something more than hope
 Cause years just slip away
 And we ain't got time for change
So we'll stay the same beneath that huckleberry sky

I watch them pass me by as we ride
 Side by side, just you and I
 Beneath that huckleberry sky
