Toss It Up

Flipsyde

It's been a long time coming so we're here to wake the dead.
Shake yo! Some songs get low, we're bout to break bread!
And our midnight show is not like midnight upfront
We lie, got long, Get over it and atleast dont get this very wrong
And toss it up.. and watch em dollar bills come sprinkling down girl bend over pick it from the ground
And toss it up.. and watch em dollar bills come sprinkling down girl bend over pick it from the ground, and toss it up!
Everybody on a thing like damn thing
Everybody dont die in the same game
Homie dont stand on the campaign
Lay back like it's not you who's champion
Lay back, we won, one time, we get all high, to the b like close to
We go, we ride, we go, we fly, we're perfect from the heat we go to..
Convict, we're not sick less, getting everybody to launch sickness then the hole game popped yo pretty dick..
Fly high, Flipsyde and evolution..
you need that treat that clean that we step we fly get em up and we got to and feel that day and we come your way wait dead,
and brotha i got you
It's been a long time coming so we're here to wake the dead.
Shake yo! Some songs get low, we're bout to break bread!
And our midnight show is not like midnight upfront
We lie, got long, Get over it and atleast dont get this very wrong
And toss it up.. and watch em dollar bills come sprinkling down girl bend over pick it from the ground
And toss it up.. and watch em dollar bills come sprinkling down girl bend over pick it from the ground, and toss it up!
