

Steady Feelin' Irie

Three Plus

When I wake up to a new sunrise
The sensation makes me feel a tingle inside
and theres nothing like a bright sunny day
and how you kisses greet me to stop me on my way

Well its you that makes me feel this way
Yes its you and i cant get you out of my head
I'm steady feelin irie ooh yeah
Steady feelin irie ooh yeah

The color green surrounds me
From the mountain to the sea
and it makes me proud to say i live in a nice country
Cause theres no place that you can go
To inhale the spirit of the island as the sweet winds blow

Well its you that makes me feel this way
Yes its you and i cant get you out of my head
I'm steady feelin irie oh yeah
Steady feelin irie oh yeah

When I wake up to a new sunrise
The sensation makes me feel a tingle inside
and there is nothing like a bright sunny day
and how you kisses greet me to stop me on my way

Well its you that makes me feel this way
Yes its you and I cant get you out of my head
I'm steady feelin irie oh yeah
Steady feelin irie oh yeah
I'm steady feelin irie oh yeah
You got me feeling irie oh yeah
I wanna feel irie
You got me feelin irie
