She Spoke to Me

Javier

She said hello and changed me forever
One simple word and I was frozen in time
I told myself it was now or never
I had to have that girl, I had to make her mineAnd so we talked for a while
And I couldn't help but smile she's so amazing
How could I make her see, she's the only one for me
And she's driving me crazy[Chorus]
It's the way that she spoke to me
Cut right through to the soul of me
She got closer than close to me
Took control of me totallyIt's got to be the way that she looked at me
And my heart that she took from me
Don't you know that it felt like destiny
When she spoke to meHer eyes were calling me to come closer
She said so much without even saying a word
And even though I don't really know her
It was the sweetest offer I'd ever heardAnd she put her hand in mine
And we danced through the night
Underneath the starry skies
And we lost track of time, as I left the world behind
When she looked into my eyes[Chorus]It's got to be the way that she looked at me
And my heart that she took from me
Don't you know that it felt like destiny
When she spoke to meCan't stop thinking 'bout
The way she makes me crazy
And everytime we touch it's such a feeling
That I can't fight, can't hide what's deep insideI won't stop it's too hot I can't take it
Can't lie, there's no way that I can fake it
No use but to surrender to her loveSo we talked for a while
And I couldn't help but smile she's so amazing
How could I make her see, she's the only one for me
And she's driving me crazy[Chorus]It's got to be the way that she looked at me
And my heart that she took from me
Don't you know that it felt like destiny
When she spoke to me[Chorus]It's got to be the way that she looked at me
And my heart that she took from me
Don't you know that it felt like destiny
When she spoke to me[Chorus]It's got to be the way that she looked at me
And my heart that she took from me

Don't you know that it felt like destiny
When she spoke to me
