

Bonfire (Venus)

Asthmaboy

when we're high
with wind blowin'
in my wings there's lots of love

to shut off when(ever) you say
you put up, everyday
drink the poison when we're sad
open big with your hands

to shut off when(ever) you say
you put up, everyday
what was different?
why are we here?

when we're high
with wind blowin'
in my wings there's lots of love

to shut off when you say
but put off, everyday
what was different?
why are we here?

far away from (the) people here
live our own lives
and yield to our years
