

So What

Bratz

A hundred eyes are looking at me
'Cuz I don't fit the box they know
I'm cool, just being all I can be
When they try to stop me, I just go, go, go So what, if I wanna have fun?
So what, if I walk and they run?
So what, if I wanna be number one? So what, if I'm talking too loud?
I'm not afraid of standing out
So what, if I wanna flip the script around?
So what No one can tell you who you really are
Nobody else can take the wheel for you
'Cuz everybody is their own star
And a girl has gotta do what she's gotta do So what, if I wanna have fun?
So what, if I walk and they run?
So what, if I wanna be number one? So what, if I'm talking too loud?
I'm not afraid of standing out
So what, if I wanna flip the script around?
So what Everyone's perfect when you believe it
Don't try to change what you see So what, if I wanna have fun?
So what, if I walk and they run?
So what, if I wanna be number one? So what, if I'm talking too loud?
I'm not afraid of standing out
So what, if I wanna flip the script around?
So what, yeah
If you wanna flip the script around, so what?
