

It's On (feat. R. Kelly)

Mary J. Blige

And it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetFor so long I've waited for the chance
To be with you
And to lie with you baby
In my dreams I take you by the hand
In our house on the beach
Making love on jet black sandBaby finally the time
Has come for us to share
The joy that we will need
And nothing can compareAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetI waited all my life
Boy for you to come along
And make that joyful sacrifice
Two kids, a dog and a home
Is like a dream come to life
When I look into your dazing eyesBaby finally the time
Has come for us to share
The joy that we will need
And nothing can compareAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetAnd it's on and it's on
And it's on and it's on
And it's on tonight

It's about time that we met
And it's about time a love I won't forgetAll my life I've waited
To get next to you
You, baby you, you, oh
And every night I've prayed
Your love would come my way
And finally the time
Has come for us to be loversAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forgetAnd it's on and it's on
And it's on and it's on
And it's on tonight
It's about time that we met
And it's about time a love I won't forget
