Constant Elevation

Gravediggaz

Beware, four figures appear through the fog
Yeah, Gravediggaz cut like swords
Fear makes ya brain go numb
You ain't got a clue where the Gods come fromI sold myself to exist an' then I flittle
With millions of sperm cells an' I found the egg
Know, I got my chance
I came to enhance, represent an' get open as a bankPass it, a deep theourassic
Gravediggaz are massive, puttin' niggaz in caskets
Blowin' like the wind, when I'm in my spin
Ya got fucked cross the path of the twisterYou face the storm an' bring it on
An' get chopped in the blocks from Hitchcock
The birds, my mental ward is my brainstorm
Somehow I flipped an' came equipped with a chainsawDiggin' graves see, pays my rent for the day
Some hate the image that I must portray
Critics, say, "Go to hell", I go, "Yeah
Stupid motherfucker, I'm already there"Frustrated, mentally aggravated
To be the rebel that society created
I'm good most times but when I'm foul then I'm flagrant
Livin' in the shadows like a government agentOne side of the story
Shit cooked up from Gravediggaz laboratory
Transformin' brains with remains of a slug
With the Undertaker makin' beats that's buggedPath, we creatin'
Splittin' G's, choppin' necks with the fat guillotines
I'm your nightmare, fright with verse
One verse will put your ass in my black hearseRyzarector, danger, enter the graveyard chamber
It's like someone diggin' in yer ear with a hanger
I inject my poison stinger into your finger
Of all your life forces, I'll take yaI'm bloodthirsty, thirsty for sure
About to bust up the same ones who bust up the poor
You're not safe anymore
To all the holy spooks, I declare warI'll, grave dig them up from Hell, resurrect them
From the poisonous bones of swine, I disinfect them
Positive energy activates constant elevation
Positive energy activates constant elevationOut of the darkness
Out of the deep of the darkness
Lies the Gravediggaz
From the parts unknown
The world that's unknownPeople fear what they don't understand
So, this is why we're here

To explain that there's nothin' to be afraid of
They have no fear, Gravediggaz are here
