Get You a Healin'

Paul Thorn

you've got to get you a healing from the bottom of your heart
get you a healing, it's the only place to start
forgive all the people who have ever brought you harm
get yourself a healing with lovin' from now ongot to get you a healing for your body and your soul
get you a healing. its good for young and good for old
fix all the problems with the people that you know
get you a healing and let your lovin' showget yourself a healing by learning how to share
get you a healing, let the people know you care
show them that you love them by really being there
get yourself a healing its like breathing fresh airget you a healing for your body and your soul
get you a healing. its good for young and good for old
fix all the problems with the people that you know
get you a healing and let your lovin' show
get your a healing for your body and your soul
get you a healing. its good for young and good for old
fix all the problems with the people that you know
get you a healing and let your lovin show
