We Fade Away

How To Destroy Angels

In disarray
We lose our way
We fade away
We fade away
We decimate
Eradicate
We fade away
We fade away
We eat your hate
Reciprocate
We fade away
We fade away
We hesitate
We complicate
We fade away
We fade away
We fade away
We separate
We isolate
We fade away
We fade away
We fade away
The pills we take
A shade of grey
We fade away
We fade away

We fade away
We fade away

Please I need a little room to breathe
Please I need a little room to breathe
Please I need a little room to breathe
Please I need a little room to breathe

Breathe, breathe, breathe
Breathe, breathe, breathe
Breathe, breathe, breathe

Breathe, breathe, breathe

Am I just talking to myself?
Am I just talking to myself?

Am I just talking to myself? Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?

We take the bait
We cannot wait
We fade away
We fade away
You ask for great
Exaggerate
We fade away
We fade away
Obliterate
Intoxicate
We fade away
We fade away
He used to pray
We can't obey
We fade away
We fade away
We see the fate
Has lost its way
We fade away
We fade away
We had to take
We lost its way
We fade away
We fade away

We have to say
We lost our way
We fade away
We fade away
We have to say
We lost our way
We fade away
We fade away

Please I need a little room to breathe

Please I need a little room to breathe
Please I need a little room to breathe
Breathe
