

We Fade Away

How To Destroy Angels

In disarray
We lose our way
We fade away
We fade away
We decimate
Eradicate
We fade away
We fade away
We eat your hate
Reciprocate
We fade away
We fade away
We hesitate
We complicate
We fade away
We fade away
We fade away
We separate
We isolate
We fade away
We fade away
We fade away
The pills we take
A shade of grey
We fade away
We fade away

We fade away
We fade away

Please I need a little room to breathe
Please I need a little room to breathe
Please I need a little room to breathe
Please I need a little room to breathe

Breathe, breathe, breathe
Breathe, breathe, breathe
Breathe, breathe, breathe

Breathe, breathe, breathe

Am I just talking to myself?

Am I just talking to myself?

Am I just talking to myself? Am I just talking to myself?

Am I just talking to myself? Am I just talking to myself?

Am I just talking to myself? Am I just talking to myself?

Am I just talking to myself? Am I just talking to myself?

We take the bait

We cannot wait

We fade away

We fade away

You ask for great

Exaggerate

We fade away

We fade away

Obliterate

Intoxicate

We fade away

We fade away

He used to pray

We can't obey

We fade away

We fade away

We see the fate

Has lost its way

We fade away

We fade away

We had to take

We lost its way

We fade away

We fade away

We have to say

We lost our way

We fade away

We fade away

We have to say

We lost our way

We fade away

We fade away

Please I need a little room to breathe

Please I need a little room to breathe
Please I need a little room to breathe
Breathe
