

World Up My Ass

Circle Jerks

I've got the world up my ass
And I'm gonna move fast
Be the first, won't be the last
I've got the world up my ass Society is burning me up
Take a bite, spit it out
Take their rules
Rip 'em up, tear them down Twisted mind, withered brain
You know, I'm going insane
I just tell them, get back, when they tell me how to act
I've got the world up my ass You know, I've got the world up my ass Society is burning me up
Take a bite, spit it out
Take their rules
Rip 'em up, tear them down You know, I've got the world up my ass
You know, I've got the world up my ass Society is burning me up
Take a bite, spit it out
Take their rules
Rip 'em up, tear them down
