

Bad Time

The Vibrators

Well, I've been havin' a bad time
Since I was twenty-two
I never had a chance in life
Used to get trodden on in school Well, now things are different
Ain't it funny how we can change?
I've been havin' a good time
Since I've become deranged
Gonna give you a Bad time, honey
Treat you any way I choose
Bad time, honey
To make up for those days at school Well, I've been having a bad time
Since you found out how to be cruel
I never had a chance at all
Since I've been hangin' round with you But now things are different
Ain't it funny how it can change?
I've been having a good time
Since I've become deranged
Gonna give you a Bad time, honey
Treat you any way I choose
Bad time, honey
To make up for those days at school, come on Bad time, honey
Treat you any way I choose
Bad time, honey
To make up for those days at school Bad time, honey
Treat you any way I choose
Bad time, honey
To make up for those days at school
