I believe in harmony
I believe in Christmas Eve
Free for all your happiness
And no one's living on their witsOne so kind and one so wise
One so kind throughout your life
Fill yourself with dreams
Fill yourself with dreams
Come fill yourself with dreamsI believed in destiny
I believed your trust was free
Free for all happiness
And no one's living with regretOne so kind and one so wise
One so kind throughout your life
Fill yourself with dreams
Fill yourself with dreams
Come fill yourself with dreamsOh and now we know
No one ever told
Now you can be boldAnd I believed in solitude
I believed till there was you
Free for all your happiness
And no one's living on their witsOne so kind and one so wise
One so kind throughout your life
Fill yourself with dreams
Fill yourself with dreams
Come fill yourself with dreamsHarmony and no dilemmas
Harmony and no dilemmas
Harmony and no dilemmas
[Incomprehensible]
