Gold Star Speaker

Remy Zero

Who was gonna tell you
That I can speak a word?
But it's almost taken over
Into the gold
Our first days are over now
The machine has come undone
And the last ones will remember us
Just like any dream
Star speaker into the gold
Star speaker
I was gonna tell you
Through the words sent over at last
It's a long stretch out of the marrow
And into the best star speaker
Star speaker into the gold
Star speaker
I was gonna tell you
Through the words sent over at last
It's a long stretch out of the marrow
And into the best star speaker
Star speaker into the gold
Star speaker
