Jet Sex

Ghinzu

Here is the time for us to know
A secret sky for us to go
You've never been before, oh no
A jumbo jet, just you and me
No parachute, it's pilot free
I guess it's time to go, oh no
Don't be shy, say goodbye
Let's find out if heaven is a lie
Never let me go
I'll never let you fall

Above the clouds, above them all
We draw the lines with smoke and coke
But then you want some more
Sex turbulences, seats D and be
We drop our love bomb full of c
Then we watch them fall, never
The more we fly, the more we climb
The more we know that heaven is a lie
Never let me go
I'll never let you fall
