

Not of This World

[Danzig](#)

Advisory - the following lyrics contain explicit language:

Not of this world
And nothing bites like I do
Nothing screams out loud
In this empty night
Nothing can keep me from you And you think that you know
The reason I'm alive
Truth is you only know the lies Not of this world
And nothing can hold it back
I am the dawn upon
Your bloody beach, come to pass Not of this world
For I am nothing known
When the seasons shift
They call my name to carry me home And you think that you know
The reason I'm alive
Truth is you only know the lies And I feel all the things
You could never understand
Choose where you stand
Am I mortal, are you man? Not of this world
Nothing bites like I do
Nothing screams out loud
This empty night, keep me from you Choose where you stand
Am I mortal, are you man? Not of this world
For I am nothing known
When the seasons shift
They call my name to carry me home
