All the Bars

Town Meeting

C F
All the bars around here close at midnight
I was tryna drink until the sunrise
I dreamt I saw you standing in the moonlight
Cause all the bars around here close at midni-ight
C F (Strum, play x3 before sing)
All the bars around here close at midnight
They unplug all the neon signs and blacklights
Come tomorrow we can start up at the same time
But all the bars around here close at midnight
C F
All the pretty girls go home at midnight
They jump into the backseat with the wrong guy
I was thinking about going for a long drive
Cause all the bars around here close at midni-ight
C F
Am G F C
I got eyes for someone miles and miles away
C
Oh the promises we made when we get straight
And then when we break
C F (Piano Solo)
Shutting the jukebox down, Kicking the patrons out
Everybodyâ€™s a little stoned, looking for an open home
Am G F C
Somewhere with a bottle to pass around
C F
Now Iâ€™m stuck in a plastic chair, not going anywhere
Too drunk to ask myse-e-elf, why the hell am I even here?
Am G F C
When I wanna be miles and miles away
C
In a city where they won't send me away
When it gets too late
C F
All the bars around here close at midnight
And I was tryna drink until the sunrise
I was hoping to forget you for the last time
But all the bars around here, all the bars around here, [all the bars around here close at midnight (all the bars

around here) x4]

[guitar chords included]
