

Gone

Tremonti

Oh, let me feel how you never believe
Oh, let me try just one last time

Gone for so long
But finally called your name
This time you were right
Finally went your way

Oh, saving face, raising memories
Oh, give me one chance to move on

Gone for so long
But finally called your name
This time you were right
Finally went your way

Fought for so long
But finally found your way
This time you survived
Finally you were saved
