Freedom Ride

Sasha Butterfly

Wish you were in my bed
Box of tissues there are instead
And the only thing in my head
What did she do right why
I know we aint together
But now I know it dont get better than you
But you dont feel the same about me
What did she do right oh
We went on a freedom ride
To see whats on the other side
And promised we would reunite
somebody changed your mind
Now youre in love
Unfinished business
Thought we were built to win this
And now you wanna end it
What didnt I do right
We were supposed to just taste it
I never thought youd get wasted
And I was foolishly waiting
What didnt I do right

chorus
We went on a freedom ride
To see whats on the other side
And promised we would reunite
But somebody changed your mind
Now you are in love
I think she will understand
If you decide to try again
Or maybe we were better off
Not knowing what exists
Not taking this risk
Let us reverse just reverse
Oh I wish we never would boarded that train
chorus
We went on a freedom ride
To see whats on the other side
And promised we would reunite

But somebody changed your mind
Now you are in love
Now you are in love yea
Now you are in love yea
Somebody changed your mind
