Ashes to Ashes

Mr Grevis

Ashes to ashes dust to dust why the good die young man suffering sucks
Ashes to ashes dust to dust if your spirits so free fly back to us
Ashes to ashes dust to dust don't hold back your actions just erupt
Ashes to ashes back to dust again we set em free in the gust of wind

This songs for the tears in Marie's eyes,
when the cops didn't care how a seed died
It's for Kaps mum, it's for Beau's mum,
all the soldiers that left I know you know one
No wonder our baby girl Michelle died,
so bottled up couldn't hear herself cry,
self harm, suicide, through her life fucked up like you an I
New in time I could stare at the cage when I walk past, Worick train station where it all starts
Are your thought dark,
and will a warbed mask, hide the demons hiding back in your past
You're past the point, so beyond caring, like Weiz Crib and Leon's parents, steady im staring through the walls
of justice laughing back till you fall for nothing

Ashes to ashes dust to dust why the good die young man suffering sucks
Ashes to ashes dust to dust if your spirits so free fly back to us
Ashes to ashes dust to dust don't hold back your actions just erupt
Ashes to ashes back to dust again we set em free in the gust of wind

Psychosis ruins lives, overdoses, suicide, try focus through the night, it's do or die do as I did who resided,
sucided did and my mind flip but besides this I suvived shit and revived it everytime that fire lit I egnite pip get
desire quick high on the ice hit lier for a nice fix
Now the dice hits gambling a nice kid, couldn't handle the full weights anvil, rambling,
scrambling his brains small sample, turns to a handful, he can't handle the pain
Ample will gain from his lesson,
when the meds done all that's left son his depression he was head strong
Now that shot gun barrels like Preston when it sets off all that's left is my death song

Ashes to ashes dust to dust why the good die young man suffering sucks
Ashes to ashes dust to dust if your spirits so free fly back to us
Ashes to ashes dust to dust don't hold back your actions just erupt
Ashes to ashes back to dust again we set em free in the gust of wind

I know ya, hold back but it's hard to hide I understand no mans to hard to cry
The darkest skies, stare and I'm asking why did you take him to the after life
Disasters vibe, mixed with a Grevis flow I'll never leave yas my feet are froze

You need ya bros, in times like this and I need my dro help me rhyme like this
Minds like twisted bombed im in unity, I know we miss him a stronger community is built only appeal from a huge lose, make you realise few friends that you do got
Whos got marijuana, Mary Jane, need a hit can't bare the pain,
not here for fame, iâ€™m not here for a piece of change for me and you to release this pain

Ashes to ashes dust to dust why the good die young man suffering sucks
Ashes to ashes dust to dust if your spirits so free fly back to us
Ashes to ashes dust to dust don't hold back your actions just erupt
Ashes to ashes back to dust again we set em free in the gust of wind
