

Time Well Spent

[Bobby Pinson](#)

That 73 Monte Carlo had a car load of Schlitz and innocence
Half a pack of daddys cigarettes and a cassette of Jimmy Hendrix
We parked beside the railroad tracks
Kicked back and wonder what life would be like if we were president
Let another fade away, wastin time well spentA million miles of dirt road dust learnin love or lovin lust
Tastin life as it came to us on a dead end road that had no end
Wishin we could make time fly not knowin it was flyin by
While we were makin plands that didnt make sense
Wastin time, wastin time, wastin time well spentShe matched my tuxedo to a 'T' in those pictures on my floor
As I stared at me, I could finally see
What she saw when she said she couldnt see me anymore
But Ill never forget the night we parked
That prom night ride on the side of a road weve never been
And let another day fade away wastin time well spentA million miles of dirt road dust learnin love or lovin lust
Tastin life as it came to us on a dead end road that had no end
Wishin we could make time fly not knowin it was flyin by
While we were makin plands that didnt make sense
Wastin time, wastin time, wastin time well spentBitter sweet what might have been comes to mind now and then
Makes me wanna go back again waste some time
Waste some time, waste some time well spentA million miles of dirt road dust learnin love or lovin lust
Tastin life as it came to us on a dead end road that had no end
Wishin we could make time fly not knowin it was flyin by
While we were makin plands that didnt make sense
Wastin time, wastin time, wastin time well spent, time well spent
