Me & You

Lumidee

Could never accept reality
In which I was presented
Livin' this crazy life for real
Could make a girl demented
Been on my hands and knees
Prayin' to God for things to change
But every single day it seems like
Things will stay the same
But change is for the worse
'Cause times I feel my life s a curse
But whose to blame me infortations suffocate
Multiple bodies felt like rape
Watchin' your whole life fade away
Playin' this world like it's a game
When I'm with you I feel no pain
Now tell me, do you feel the same?
Can I hold you down?
How it all so ground?
Theres not much I would do
To keep you by my side, its true
My love for you is all
That can keep me strong
But I'll hold that from you
Until you tell me what
We have is true
Can I hold you down?
How it all so ground?
Theres not much I would do
To keep you by my side, its true
My love for you is all
That can keep me strong
But I'll hold that from you
Until you tell me what
We have is true
Sometimes when I think
Of all the things I've been through
I wanna take myself out
But then I think of you
If theres one thing in this world

That I'd rather do
Then to live and die
Oh, it's to be with you
And even though I show you love
You still a lonely thug
And even when we share our dreams
Still it ain't enough
Is it me, do I not reach your thoughts?
And when you get around the fellas
Do you even talk, about me?
Because you know

That all I do is think of you
Although I love you
Ain't no way 'cause
You can't even see me through
Because I live for you, cry for you
Lie for you, kill for you
And on the real I'd die for you
Every night before I lay
I pray that you get home safe
And I can't think straight
If I dont know, you ok
I wanna love you
Wanna hold you, wanna kiss you
Wanna touch you
Can't you see you are my issues?
Can I hold you down?
How it all so ground?
Theres not much I would do
To keep you by my side, its true
My love for you is all
That can keep me strong
But I'll hold that from you
Until you tell me what
We have is true
Can I hold you down?
How it all so round?
Theres not much I would do
To keep you by my side, its true
My love for you is all
That can keep me strong
But I'll hold that from you
Until you tell me what
We have is true

We outta chase my better dream
'Cause I can see much bigger things with you
Imagine me and you
You outta chase my better dream
'Cause I can see much bigger things with you
Imagine me and you
Imagine me and you
Against the world
Ain't no one who will go all night
Just boy and girl
Together we ain't trustin' none
It ain't no fun
But thats like we live in
Won't take what is given
