

# Chuckie's Gone

[Toby Keith](#)

Twister came through our home town and  
Tore a lot of peoples houses down  
Always happens in the spring but  
This time we missed everything.  
I put the band back on the road and we  
Still got a lot of wild seeds to sow  
LB prayed and Michael cried it was the  
First time without you by my side.Stage goes up, stage goes down  
Buses roll through another town and  
Words to write and gigs to play and  
You'll always, be a song away  
Your bass is there where you used to stand  
And even though we got a killer band  
Still look up in the middle of a song  
And realize  
Chuckie's gone.Chuckie's goneNever got to say goodbye, and thank you  
For the times I cried laughin'  
You were quicker than the rest  
Fastest gun slinger in the West  
I hope you find peace from your pain  
Must've been like a hurricane so  
Fly away with all our love  
Sure wish you didn't need that stuff.Stage goes up stage goes down  
The buses roll through another town and  
His words to write and gigs to play  
And you'll always be a song away.  
Your bass is there where you used to stand  
And even though we got a killer band  
I still look up in the middle of a song  
And realize  
Chuckie's gone.Chuckie's gone
