

No Cure

Simple Minds

I see them walking
You know they're walking at night
Ohh, in the dark you know
They're shining out so bright
Your sarky voices are gonna come on so near
As every picture becomes so clear
You, you come on so sharp
Yet be so nice
Tell me that you're so hot
But you're cold as ice
There is no cure
You're so blind, can't you see?
There is no cure
Can't buy no immunity
There is no cure
So keep your evil from me
There is no cure
They like to stay, ooh, come on
Come on and stay up so late
You gonna talk of all the things you just wanna hate
You wanna come on, come on and make me
So mad, mad, mad, mad, mad
Inside your heart I know it feels so bad
You, you come on so sharp
Yet be so nice
Tell me that you're so hot
But you're cold as ice
There is no cure
You're so blind, can't you see?
There is no cure
Can't buy no immunity
There is no cure
So keep your evil from me
There is no cure
Come on and do it
Just what to do it
They're going to do it
Just gotta do it
There is no cure
There is no cure
There is no cure
There is no cure
There is no cure
