

Fire

Delta Rae

I, I got my eye on you, I heard what you been saying
These rumors you spread 'round, they burn me down like flames and
We used to be friends, but that ain't true now
You ain't got my back, you've shown me that so many times

When I need help
Can't call for help
'Cause no one comes

So I'm calling FIRE

It won't be pretty, I ain't no girl cried wolf, I'll bring this whole damn city
They'll come from miles around just to see how you cut me down
We used to be friends, but that ain't true now
You poisoned the well, now I can't tell who's on my side

When I need help
Can't call for help
'Cause no one comes

So I'm calling FIRE
