I'm Wrong

Dave Hollister

Hey love

Listen I know that you don't want to hear this

But baby I'm sorry

I gotta be a man about it and tell you

That I was wrong

Listen [Incomprehensible] You can leave

You'll come runnin' back to me, you'll see

That's how and old boy used to think

Like you was supposed to do, what I said doNow I'm tripping 'cause you walked away

And all I see is clouds and rainy days

Only one thing I want to say, I got to be a man about it

I shouldn't been treating you that way, I was wrongI'm wrong, wrong I've been so wrong

The only girl I ever loved is gone

She won't come back to me

Won't come back to me, noI'm wrong, wrong I've been so wrong

The only girl I ever loved is gone

She won't come back to me

Won't come back to me, noI'm a fool, God knows

'Cause I been mistreating you, I know

I've gotta change, gotta be a man

If there's a chance, please come back to me, pleaseI just want to lay it on the line

I've cheated and I've lied

But I can't survive

Without you in my lifeI wanna change all my wrongs

Help me make this a happy home

I'll get down on my knees

Just come back to me, pleaseI'm wrong, wrong, I've been so wrong

The only girl I ever loved is gone

She won't come back to me

Won't come back to me, noI'm wrong, wrong, I've been so wrong

The only girl I ever loved is gone

She won't come back to me

Won't come back to me, noGirl, I need you I really need you

So come back to me

I know I mistreated you, don't deserve to see you

But come back to meI'm going on to the only one I've

Ever thought was mine

Running out of time, yes I am baby

Girl, I knowI'm wrong, wrong, I've been so wrong

The only girl I ever loved is gone She won't come back to me Won't come back to me, noI'm wrong, wrong, I've been so wrong The only girl I ever loved is gone She won't come back to me Won't come back to me, noI'm wrong, wrong, I've been so wrong The only girl I ever loved is gone She won't come back to me Won't come back to me, noI'm wrong, wrong, I've been so wrong The only girl I ever loved is gone She won't come back to me Won't come back to me, noSee my baby is gone And all I can say formyself is Oh my, oh my, oh my That's what you'll be saying When she leaves you Oh my, oh my, oh my
