

Harmony

Mint Condition

Boy let's sing this sucka
You wanna be alone A joy to see you
I'm so glad I'm here
I come as a true friend
So feel comfortable relax your fears You've got no one
And you know I've got nobody too
Never been so much in tune
With anyone in my life too We just took our time
To settle and unwind
We innocently vibed
Our hearts intensified, until Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony Did not expect, no
To get a lover from a real friend
You are so warm to me, when I'm around
You won't melt like margarine Oh girl you thrill me
Oh, with your world please feel me
Oh, lady you excited me
Oh, won't you please invite me We just took our time
To settle and unwind
We innocently vibed
Our hearts intensified Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony You sang, a melody
And naturally I ring, a harmony
'Cause lady I feel the real thang
Can we be the main thang Honey I wanna be your one man band
Your piano man, may I tinkle your grand
I tinkle you Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony Silently, soulfully
You creep into my life
And now you

Become a part of me baby Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony Silently, joyfully, silently
