No Way Out

Restless Heart

Yes, I really saw her
What was I supposed to do?
Yes, she was my lover
Long before I knew you
When love is a place you've been
Ten million miles around
When you fall along way in
Darlin', there's no way out
When you fall along way in
Darlin', there's no way out
Yes, she's still as pretty
Yes, her eyes are that blue
Yes, there's still a trace there
Of the feelin' we knew
When love is a place you've been
Ten million miles around
When you fall along way in
Darlin', there's no way out
When you fall along way in
Darlin', there's no way out
Oh, but how could you ever think
She could be anything more
Then old memories?
What about all our dreams?
How can I make you be sure
Sure about me, sure about these
Moments together
These nights that we've cried
These roads to forever
These feelings inside
When love is a place you've been
Ten million miles around
When you fall along way in
Darlin', there's no way out
When you fall along way in
Darlin', there's no way out
