Walking With The Beast

Primal Scream

Violence in the air, damage everywhere
Murder in my dreams, waking up to screams
I just can't explain the way I'm feeling sad
Hits me like a train, eating me aliveWalking with the beast, walking with the beast
You can't get no peace walking with the beast
You can't get no peace, you can't get no peace walking with the beastThe ghost in other man, his future's in his hands
Doesn't know he's going down, he still alive as he drowns
His pain heals as disease, handsome every time we breeze
Hits some suffering everyone, he's sucking on loaded goneWalking with the beast, walking with the beast
You can't get no peace walking with the beast
You can't get no peace, you can't get no peace walking with the beast
