

# I Apologize

## Five Finger Death Punch

One day the shadows will surround me  
Someday the days will come to end  
Sometime I'll have to face the real me  
Somehow I'll have to learn to bend  
And now I see clearly  
All these times  
I simply stepped aside  
I watched but never really listened  
As the whole world passed me by  
All these times  
I watched from the outside  
Never understood what was wrong or what was right  
I apologize  
Oh, oh, oh, I apologize  
Oh, oh, oh  
One day I'll face the hell inside me  
Someday I'll accept what I have done  
Sometime I'll leave the past behind me  
For now I accept who I've become  
And now I see clearly  
All these times  
I simply stepped aside  
I watched but never really listened  
As the whole world passed me by  
All these times  
I watched from the outside  
Never understood what was wrong or what was right  
I apologize  
I APOLOGIZE (Guitar solo)  
One day the shadows will surround me  
All these times  
I simply stepped aside  
I watched but never really listened  
As the whole world passed me by  
All these times  
I watched from the outside  
Never understood what was wrong or what was right  
I apologize  
I apologize  
Oh, oh, oh, I apologize  
Oh, oh, oh, I apologize  
Oh, oh, oh, I apologize  
Oh, oh, oh, I apologize  
I apologize
