

Change (Demo) [Bonus Track]

Mates of State

Change is gonna come
You better welcome it
Change is gonna come
And gonna set you free
Change is gonna come
You better welcome it
Change is gonna come
And it is gonna set you free
The car stalls at the side of the road
Don't know if I'll make it home again
Well I know if you tried something new
You can win this little heart of mine
And didn't it feel right to scream?
And didn't it good to walk away?
And didn't it feel right to scream, "it's bullshit"?
And didn't it good to walk away?
Change is gonna come
You better welcome it
Change is gonna come
And gonna set you free
Change is gonna come
You better welcome it
Change is gonna come
And it is gonna set you free
The bright lights might have all been a lie
It must have been some kind of dream
Well I was thinking about our fight
I know there's more than one way to love me
Change is gonna come
You better welcome it
Change is gonna come
And gonna set you free
Change is gonna come
You better welcome it
Change is gonna come
And it is gonna set you
Change is gonna come
And didn't it feel right to scream, "it's bullshit"?
And didn't it good to walk away?
Change is gonna come
