

Workin' On a Groove

[Jody Watley](#)

It's been a long while since we shared some special time alone
I think we should get away take a romantic holiday
Maybe we could take a walk stroll through a path on a beach
Spendin' time just holdin' hands - kisses just make it so complete This time is meant to be for lovers
This time we're thinkin' of no other
Just you and me we're working on a groove called love
Just you and me working' on a groove called love In these crazy times we live it's good to know you're there for
me
And I just wanna let you know that you can always count on me
This time we're thankful for each other
This time we're thinkin' of no other
Just you and me we're workin' on a groove called love
Just you and me working on a groove called love
