

This Life

[Chase Johanson](#)

This life, blessed with love and heart and soul.
But time flies, hidden 'hind the bright and bold.
And your sides, empty, and I feel so cold.
Cheap lies, lead to loneliness I'm told This day, thinking about what I'll be.
When you say, see what you have done to me.
This way, I know you'll feel my sympathy.
So I'll stay, by myself so I can breathe This time, I'll be slow.
I wont try to fill this hole,
I'll smile but down below
You made it easy to let go Tight rope, walk it like a normal day
A Bad joke, makes you feel a type of way
Don't croak, it doesn't matter what you say
Blood soaked, a metaphor of every play This time, I'll be slow.
I wont try to fill this hole,
I'll smile but down below
You made it easy to let go This time, I'll be slow.
I wont try to fill this hole,
I'll smile but down below
You made, Yeah you made it easy to let go
