Hothouse

78violet

You stand so still
Hiding on the corner
Waiting for the sign
To come I come
Ah ah ah
I know your type yeah
Youâ€™re all the same
But who I am to blame
When I fall deep

In the beginning
You intrigue
But the way you move me
It terrifies me and you
Remind me of the things
That I donâ€™t need

Youâ€™re a Hothouse flower
Something I cannot handle
You you canâ€™t handle you
Canâ€™t handle you
I take one step then
I take one backwards
Iâ€™m kinda curious oh
No you got me already

In the beginning you succeed
But the way you move
It terrifies me and you
Remind me of the things
That I donâ€™t need

Youâ€™re a Hothouse flower
Something I cannot handle
You you canâ€™t handle you

And I donâ€™t need your hands
I donâ€™t need your shadow
And I donâ€™t need your hands
Or your shadow

Oh oh oh

Youâ€™re a Hothouse flower
Something I cannot handle
You you canâ€™t handle you
