## **Cruel and Beautiful World**

## **Grouplove**

Go ahead and close the door I'll stand outside in the rain A little bird just told me so

It's time to start over againSo I'll run out and take this boat
Far away from these shoresAnd I'll reach behind an enemy line
and find my curable cure(Chorus)

Cause it's a cruel and beautiful world

and I got my girl

and if it seems like we're falling behind

or just slipping on top from the mouths of our mindI buried a treasure

far off near the desert

I'm trying to find my way there

It's been too long since I've been myself

And my eyes can't see anymoreand there's a song inside of this hard of mind

and I'd like to sing it to you

Cause there's an earthquake shaking inside my country

Now what am I gonna do?(chorus)

Cause it's a cruel and beautiful world

and I got my girl

and if it seems like we're falling behind

or just slipping on top from the mouth of our mind (hey)Cause it's a cruel and beautiful world (cruel and beautiful world)

and I got my girl (he's got his girl)

and if it seems like we're falling behind (seems like we're falling behind)

or just slipping on top from the mouth of our mind
