

# Surf of Syn

## Gwar

Unsheathe the sword, call the death squad  
Let loose the dogs, make me your God  
Blaspheme the name, stretch forth thy rod

Get on your knees, make me your God  
Unleash the nuns, curse the Earth  
Devour the worm, I am your God  
Suffer the plague, repent your sin  
Declare unclean, my God  
machineNumber the beasts, sound the horn  
Suffer the wrath, bring me your first born  
Cardinal Syn has come to free us  
Source of power Cyber Fetus  
I am Cardinal Syn  
Worship me or know damnation
