

Firedance

Whelan, Bill

Yeah, once again I start to wonder
Sailing thoughts on endless sea
Might be you I see reflected from afar
Could be just my fantasyAll my love and emotion
 Life is nothing without you
 Like a drop finds the ocean
I'm gonna find my way to youLow thunder rollin'
 Take me away, away
 There's something callin'
Askin' me to playFiredance, it's a firedance
 Firedance, just a firedance
Oh yeahI'm the wind against the mountains
 I'm the fire deep inside
 I feel the magic, the rhythm is my soul
I no longer have to hideJoin me now, come on over
 There's a place right here for you
 Seize the moment and discover
All the things you always knewLow thunder rollin'
 Take me away, away
 There's something callin'
Askin' me to playOh, firedance, it's a firedance
 Oh, firedance, just a firedance
Oh yeah, just a firedance'Cause it's a firedance, it's a firedance
 Oh, firedance, just a firedance
 Firedance, it's a firedance
 Firedance, just a firedance
 Oh yeah, oh, it's a firedance
