

I'm Still Waiting

Jodeci

It's been so long
Since I touched a lady
And I'm still waiting
For you to come back to me, babe
Now will you forgive me
For the wrong I've done
And let's try again
To make it last so long
I'm still waiting
For you to come back to love
To fulfill this life
We're dreamin' of
(So don't wait)
Another day might be too long
(Don't rush)
Go slow so nothing goes wrong
(Listen babe)
I can't wait
To feel your love again
'Cause you can stop this pain
That I've been feelin', babe
So let's start all over
And put the past behind
And make a love to stand
To the test of time
I'm still waiting
For you to come back to love
To fulfill this life, yeah
We're dreamin' of
(And these feelings are so very strong)
Another day might be too long
(Yeah yeah)
Go slow so nothing goes wrong
(I just can't take it no more, baby)
(No baby)
The feel of your warm embrace, baby
(No, no, no, no)
(I'm still waiting on you)
I'm still waiting
(I'm still waiting)
For you to come back to love
(Ohh, yes I am)
To fulfill this life
(That we're dreamin' of)
We're dreamin' of
(So baby, please don't wait, baby, baby)
Another day might be too long

(My arms are open wide)
Go slow so nothing goes wrong
(Yeah, yeah, I don't have to do right no more because) Sometimes I get so lonely wanna call you, baby
(I call you baby when I'm not)
Just a little love is all I need
(Yeah)
Another day might be too long
(Another day might be too long) Go slow so nothing goes wrong
(Yeah yeah)
Just a little love is all I need
(My arms are open wide)
Just a little love is all I need
(Yeah)(When night)
To feel of your warm embrace
(Your love is warm embrace, to feel of your warm embrace)
I'm still waiting
(I'm still waiting for you to come back to love)
(Come back, my baby)
To fulfill this life
(Come back)
We're dreaming of
(Come on back, I want you back, I want you back baby)
