# Show Girl

## The Four Seasons

I took a show girl
for my bride
Thought my life
would be right
Took her bowling
got her high
Got myself a showgirl bride

Took a job on the side
In a health shop
keeps me well
Got my mantra for life
Got my karma
And a showgirl bride

All my life
All her life
All our life

I married a showgirl
That's for life

She can't work
in the wintertime
I can't work anytime now
Go to libraries all the while
Looking for a notice
Biding my time

All my life
All her life
All our life
I married a showgirl
That's for life

I took a showgirl
For my bride
Sprinkled stardust
on my wife
Took her bowling

got her high
Got myself a showgirl bride
Don't you recognise us?
