Shell Shock

Benedictum

Skilly bebop beat rocks, steady over kicks and snares
So what you scared for, unprepared for
Tunnel rat schematics, score from your average rappers new era
We rocking sewer caps
Breathing bricks, exhale train rails
City light better spot us with the nonsense behind us
This is how we do it
I'm just a hooligan drunk while pillaging, spitting raw sewage
Splinter cell movements, turnstile jumper
Punks step up to get beat down bumper
Aliens and bright colors
So bright, we be crying like late night mothers
Hover board kick flips land it a little to the left
As you can bet every result was a split lip
Skipped school make shortcuts
Act foolish like kids with the windows on the short bus
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
I did it my way
Sat back and let 'em live soft so they can die hard yippie kah yay
We exist is the circles
So the first grade that pushed me get boxed out like girl scout cookies
This is not a test, we don't trust you not a fan of men
(That rock UGG boots)
I don't understand
(Can you blame me?)
I guess that's just the way
(My pop's raised me)
A penny for a thought, a nickel for a swift fist to the face
For letting them think that I let my players go to waste

(Nope)
Top of the food chain, but way too cool to not drop a little
Sarcasm in your water main
D- did I stutter man?

C-could you please make a toast for the k-kicker?
'Cause you know I'm spittin' water man
Same day, new day dismantled
Same travie time, same travie channel
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Welcome to shell shock
Ringing in your ears like the bells that el rock
It doesn't matter whether or not the cell locks
See if you can find solace in the coldest cell block
This is shell shock
Yo momma jokes
Yo momma's breath smells like salamander stew
Yo momma drink country club outta a bottle, a baby bottle
Yo momma smells diseased
Yo momma got leprosy and gold Nike's
Yo momma smells like a problem, boo

Yo momma got six elbows, and she do tha robot, boo
Yo, yo momma smells like the inside of this recording booth, hah
