# Overboard

## Shannon Hurley

I was drifting before I found you
I had no place to call my own
Life was passing me down the water
I was heading down the break alone

I don't worry
Things are fine
There's no hurry
You're right on time

I get carried away
It's a feeling I never knew
And when I'm in your arms
I go overboard
I don't want it to end
I can't stay away from you
You make me fall so deep
I go overboard

When the sky opened up and cried
All my hopes and dreams were bent
It was you who opened up my eyes
Made me want to live again

I don't worry
Things are fine
There's no hurry
You're right on time

I get carried away
It's a feeling I never knew
And when I'm in your arms
I go overboard
I don't want it to end
I can't stay away from you
You make me fall so deep
I go overboard

You have been nothing but good for me
I don't want you leaving

You are the best thing to come my way
Baby believe it
