4th Reich

Stratovarius

Sign of the times and writings on the wall
They show me it's time has come
Order of a new kind we will all find
Stronger than never beforeThings are pretty much the same
Like in the year thirty eight, oh, won't we ever learn
This time it's gonna be different so let's all join our hands
And let the children sing for the last time4th Reich is rising
Can't you see the signs
4th Reich is rising
For the last timeLet's just press more money, don't worry about the inflation
We got to have more weapons to carry on
Unemployment and sorrow cannot be avoided at this point
But thins will be so different when they are ruling the world4th Reich is rising
Can't you see the signs
4th Reich is rising
For the last timeWhat will be left to our children?
Is this our final destiny?Can't you see the signs
4th Reich is rising
For the last time4th Reich is rising
Can't you see the signs
4th Reich is rising
