

You Gave Me a Promise

Fireflight

The waves are crashing down on me
But I know this cannot be the end be the end
Right now I feel like copping out
Will You hold me up If I just say that I will stay? I will hold on to this hope that I have
You gave me a promise, You gave me a promise
Ill push through this moment, Ill never give up
You gave me a promise, You gave me a promise Im so tired that I cant stand
But I know that time will heal this heart, heal this heart
With every door thats slamming shut
A new ones there to lead me where You are, where You are I will hold on to this hope that I have
You gave me a promise, You gave me a promise
Ill push through this moment, Ill never give up
You gave me a promise, You gave me a promise You, You call out to me
Youre just out of reach but Im closing in
Im still going, still believing in Your word I will hold on to this hope that I have
You gave me a promise, You gave me a promise
Ill push through this moment, Ill never give up
You gave me a promise, You gave me a promise I will hold on to this hope that I have
You gave me a promise, You gave me a promise
Ill push through this moment, Ill never give up
You gave me a promise, You gave me a promise
