## You Gave Me a Promise

## **Fireflight**

The waves are crashing down on me But I know this cannot be the end be the end Right now I feel like copping out Will You hold me up If I just say that I will stay? I will hold on to this hope that I have You gave me a promise, You gave me a promise Ill push through this moment, Ill never give up You gave me a promise, You gave me a promiseIm so tired that I cant stand But I know that time will heal this heart, heal this heart With every door thats slamming shut A new ones there to lead me where You are, where You areI will hold on to this hope that I have You gave me a promise, You gave me a promise Ill push through this moment, Ill never give up You gave me a promise, You gave me a promise You, You call out to me Youre just out of reach but Im closing in Im still going, still believing in Your wordI will hold on to this hope that I have You gave me a promise, You gave me a promise Ill push through this moment, Ill never give up You gave me a promise, You gave me a promiseI will hold on to this hope that I have You gave me a promise, You gave me a promise Ill push through this moment, Ill never give up You gave me a promise, You gave me a promise
