

# it's too late

## Steve Gornall

Stayed in bed all mornin' just to pass the time  
There's something wrong here there can be no denyin'  
    One of us is changin'  
        Or maybe we've just stopped tryin'  
        And it's too late baby, now it's too late  
        Though we really did try to make it  
        Something inside has died and I can't hide it  
            And I just can't fake it  
                Oh, no no no no  
                (No no no no)  
        It used to be so easy livin' here with you  
            You were light and breezy  
            And I knew just what to do  
        Now, you look so unhappy and I feel like a fool  
            And it's too late baby, now it's too late  
            Though we really did try to make it  
                (We can't make it)  
        Something inside has died and I can't hide it  
            And I just can't fake it  
                Oh, no no  
                Ru ru ru ru  
                La la la la  
        There'll be good times again for me and you  
        But we just can't stay together don't you feel it too?  
            Still, I'm glad for what we had  
                And how I once loved you  
            But, it's too late baby, now it's too late  
            Though we really did try to make it  
                (We can't make it)  
        Something inside has died and I can't hide it  
            And I just can't fake it  
                Oh, no no no no no  
                It's too late, baby  
                It's too late  
            Now darlin', it's too late
