Oh My God

Professor Green

Ohh woahhh oh oohh x 4
Are you ready for the revolution
my elocution is execution i am a electrocuted
what the hell am i doing up no idea
but catch a wiff of my fingers
and you can still smell susan
smell like a ashtray breath stinking of liquor
pocket full of change and yesterdays get up
same jeans that i had the day before
laaaaa
guess i'm raps george best with a lot more cess
a little more liquor and alot more sex
Chorus
sometimes we take it too far
knocked out, sick on my guitar
and i hear them say
oh my god, say oh my god, say oh my god
lay my head down on the bar
cause whiskey never taste good
when i hear them say
oh my god, say oh my god, say oh my god.
verse 2
the first look you make me shiver, sipper
k, picking at yesterdays dinner plate
the way i say things it figures im Paige thicker
when i thing says spitters make her say uhhh
get insain and wanna get in my way picker
day when you wanna get with a rated star
diss me not (im frisky)what
still itching to stick me cock in pixie lott
just call me raps george best with a lot more cess

a little more liquor and alot more sex
Chorus
sometimes we take it too far
knocked out, sick on my guitar
and i hear them say
oh my god, say oh my god, say oh my god
lay my head down on the bar

cause whiskey never taste good
when i hear them say
oh my god, say oh my god, say oh my god.
i do drugs cause i like the buzz
go sleep and wake up feeling like i tried to fight a bus
a bearly functioning alcoholic
liveing life like a student with a pop stars walllet
always smiling with my new teeth
two e's two pupils two 2ps
in a chemical romance, and i'm loved up
a mascot for a generation full of fuck ups
don't be afraid it's alright
don't be afraid it's all good
i'm in a daze, always
my yesterdays a blur x2
chorus
sometimes we take it too far
knocked out, sick on my guitar
and i hear them say
oh my god, say oh my god, say oh my god
lay my head down on the bar
cause whiskey never taste good
when i hear them say
oh my god, say oh my god, say oh my god
oh my god... say oh my.
