

Hope Is Rising

Luminate

This is the time for the rising
When our souls stand as one
This is the time for redemption
When all will see You come
This is the time for the healing
Where broken lives are made new
This is the time for revival
When all will bow to You
'Cause every prison has a door
Every captive can be free
Every sinner has a hope
And hope is rising up in me
This is the will of the maker
To see His children made whole
This is the will of a Savior
To lead His children home
'Cause every prison has a door
Every captive can be free
Every sinner has a hope
And hope is rising up in me
Now hope is rising up in me
Holy Spirit, send Your power
'Cause only You can save us now
Oh Holy Spirit, send Your power
'Cause only You can save us now
This is the time for the rising
Yeah, this is the time for the rising
This is the time, this is our time
Now is the time for the rising
And every prison has a door
Every captive can be free
Every sinner has a hope
Now hope is rising up in me
Oh, every prison has a door
Every captive can be free
Every sinner has a hope
Now hope is rising up in me
Oh, hope is rising up in me
Now hope is rising up in me
Every prison has a door
Every captive will be free
Every sinner has a hope
And hope is rising up in me
