

3 Feet Tall

I Am Kloot

3 feet tall with a head like a bowling ball
Can't get up from where you fall, do you bring this back to me?
What's it for? Stood in the clothes that you once wore
Stood up from the night before, do you drink and never leave? Take my hand across the sand and lead me out to
sea
Heaven sent the money we spent, give it back to me Loneliness, it's got your name and your new address
When it walks in the place is a mess and it drinks and never leaves
What's it for? Stood in the clothes that you once wore
Stood up from the night before, do you dream and never sleep? Heaven sent the money we spent, give it back to
me
Take my hand across the sand and lead me out to sea Take my hand across the sand and lead me out to sea
Heaven sent the money we spent, give it back to me Fortune favors, money takers, get a sound and see
Sounds 'strumental, fashion central, give it back to me
